## April Edition

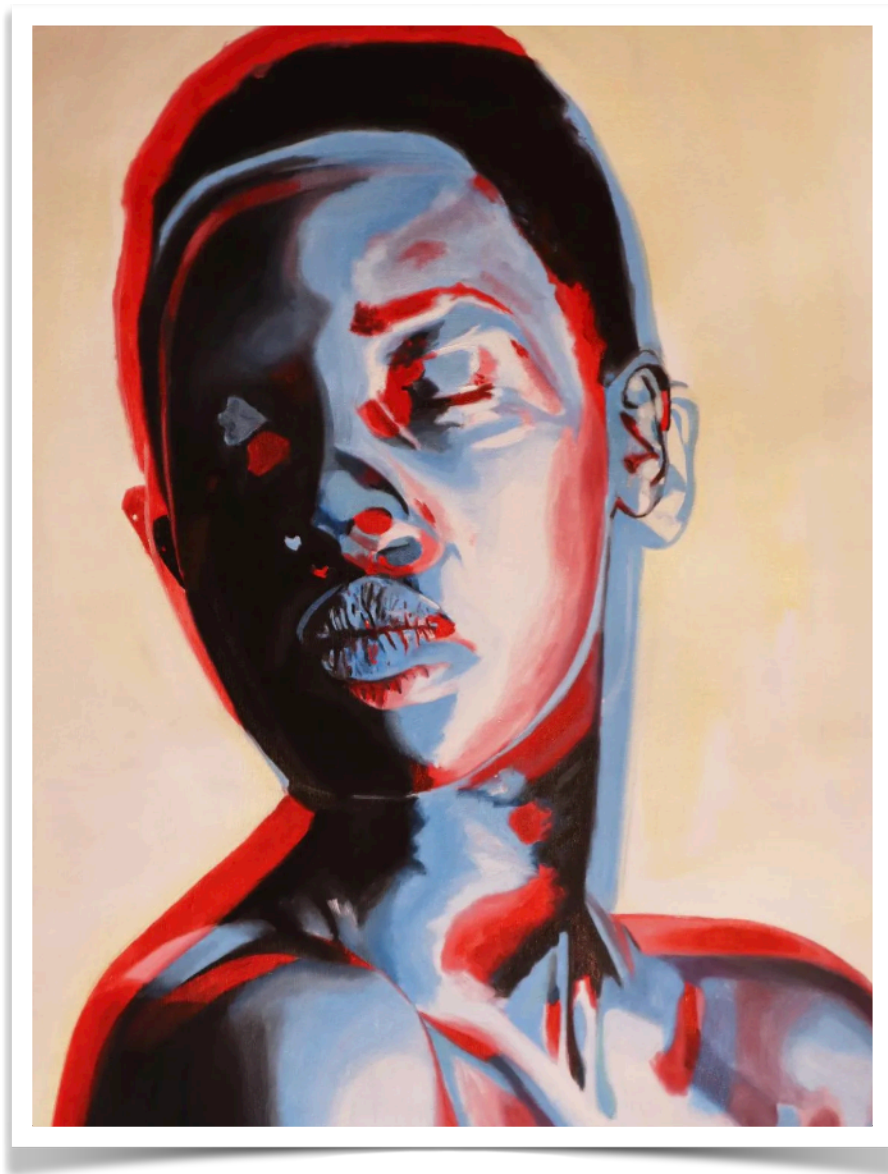

*Uptick Curated is a chance to showcase some of the wonderful and talented creators from the Uptick Ecosystem. Each month we pick some of our favorites and share with the community.*

*We've been on the hunt for our favorite creations again, so let's get stuck into this month's edition!*

# Jac Bezer | 3 Dimensional Woman

Our first choice for this month's feature is Jac Bezer's illustration, chosen for its emotional depth captured through minimalism and color. We were drawn to the way Bezer conveyed a strong, silent narrative with just a few bold strokes and a striking color palette.

# Edapollo | Abstract Collection #09

Digital artist Edapollo blends classical beauty with a modern, digital aesthetic in this beautiful work of art. We thought the juxtaposition of the serene sculpture with a classical face against a backdrop of lush, almost glitch-like nature added a super cool contrast. The warm coral and cool teal color scheme really added to the dreamlike quality of the image and made it a worthy addition to this month's curation.

# Chrispy | Sky Racer

Captured through the lens of Southeast Asian photographer Chrispy, this our next entry employs the double exposure technique to create an image that's both familiar and surreal. The bustling street scene is layered with a textured overlay, breathing new life into the image. This really adds a dreamlike quality to the urban setting, with the motorcycles and tuk-tuks, staples of Southeast Asian transit that appear almost ethereal, juxtaposed against this secondary pattern.
