

Uptick Curated

August Edition

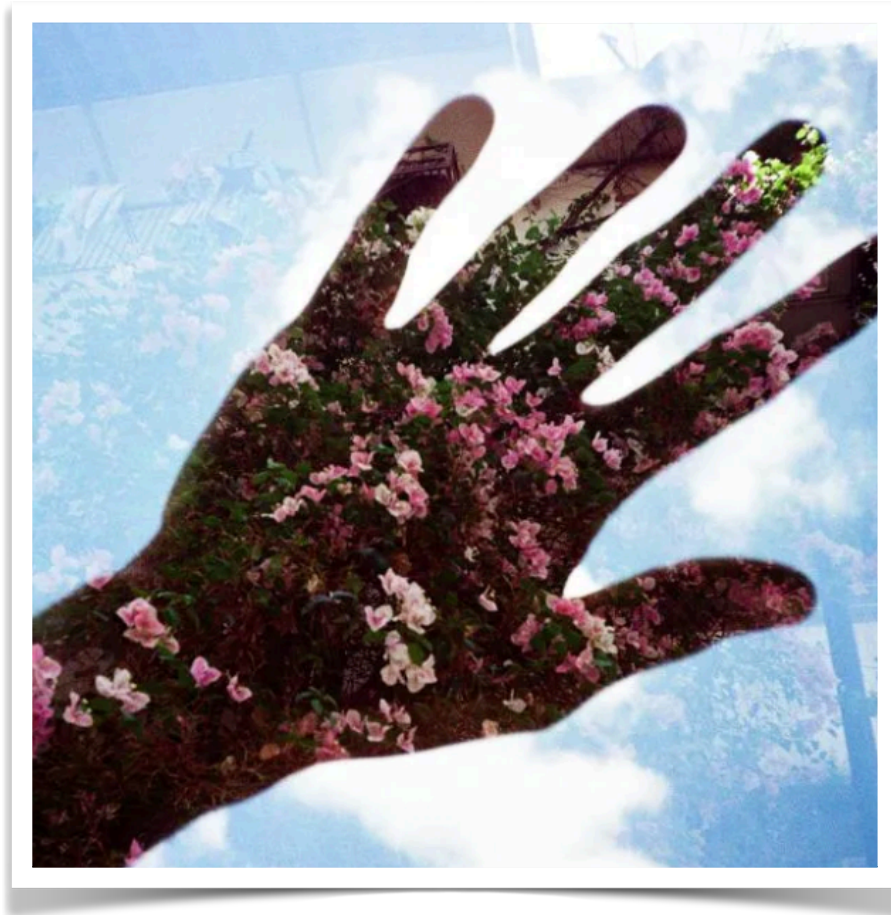

Uptick Curated is a chance to showcase some of the wonderful and talented creators on the UptickNFT.com platform. Each month we pick some of our favourites, provide the inspiration behind their work, and share with the community.

Let's get into it!

Chrispy | Floral

We were captivated by the surreal atmosphere captured in the first entry of this month's edition of Uptick Curated, showcasing the talent of SE Asia-based analog photographer, 'Chrispy'. The clever incorporation of double exposure added a unique and creative touch to the image, earning it a well-deserved spot in this month's collection.

About

"This image is from a collection titled 'Celestial Handprints'. I had the rough idea of capturing a series of hand silhouettes in the sky, which created a dark and blank canvas for me to use as the base. I then chose the second image (the double exposure) as a floral pattern, which then created this almost tattoo-like effect on the arm and hand. I really liked the way this one turned out and felt I captured the dreamy surreal-like elements I was hoping for".

Motroco | Ride or Die #7

Next up is an incredibly talented photographer from the beautiful island of Tenerife! We were blown away by the overall aesthetic in this photograph, where a vibrant turquoise ocean serves as a stunning backdrop to the focal point of a striking red female figure at its center. The meticulous attention to detail is showcased through the addition of coordinating turquoise socks, which elevated the composition to perfection.

About

"The RIDE OR DIE" series was made while I was going through an artistic crisis. It kinda mirrors my situation at the moment: lazy, unmotivated, trying to fix something in my life with a skin mask , some hair curlers and of course, a big hole in my chest".
